S Short-Term Improvements

L Long-Term Improvements

\$: Funded

Note: Numbers are not in sequential order.

Short-Term Improvements

- S63 SR 169 from SE 416th Street to SR 164**
Repave the roadway segment. Improve the intersection at SE 416th Street. Specific intersection improvements will be determined during the project design phase. (Begins in Rural/Agricultural segment and ends in Enumclaw segment)
- S66 SR 169 from Thunder Mountain Middle School to McHugh Avenue**
Extend the sidewalk along SR 169 to Thunder Mountain Middle School to improve pedestrian safety. (Begins in Rural/Agricultural segment and ends in Enumclaw segment)
- S67 SR 169 in the Enumclaw vicinity**
Build sidewalks on east side of SR 169 to enhance pedestrian safety.
- S68 SR 169 @ McHugh Avenue**
Improve the intersection to enhance safety and traffic flow. Specific intersection improvements will be determined during the project design phase.
- S69 SR 169 @ Washington Avenue**
Realign the road to improve driver visibility, provide advance warning signs of pedestrian crossings and repave pedestrian crosswalks.
- S70 SR 169 @ Washington Avenue**
Improve the intersection to improve safety and traffic flow. Specific intersection improvements will be determined during the project design phase.
- S71 SR 169 @ SR 164**
Improve the intersection to accommodate truck turns.

** Note: These projects are recommended for further analysis and may not be included in the final Route Development Plan*
